The main content area features a headline: 'mote enables voice note feedback within Google Classroom, Google Docs & more.' Below this is an 'ADD TO CHROME' button and a video player showing a 'setting' video. A '#moteminutes' hashtag is also visible. The 'more about mote' section describes it as a Chrome Extension for adding voice notes and feedback to documents, assignments, and emails. It highlights that Mote is the fastest and friendliest way to share voice notes and feedback. The 'mote is' section lists three key features: 'fast' (voice comment up to 3 X faster than typing), 'friendly' (express yourself clearly and stay better connected), and 'free' (get started for free, upgrade for awesome premium features). At the bottom, there are two testimonials from teachers, each with a heart icon.

Below the search bar, there are four featured sections: "Forvo Travel" with an illustration of a person and buildings; "Coronavirus pronunciation guide" with a 3D virus model; "Forvo Certificates" showing a circular badge for "2020 PRONONCIATION CERTIFICATE"; and "Forvo Kids" with a "Voir le détail" button and a photo of a child. A "Langue du jour" section highlights "Finnois" with statistics: 5,000,000 speakers, 1,967 Forvo speakers, 63,006 words pronounced, and 235 words pending pronunciation. A "News" section lists recent articles such as "A thank-you message" and "Most visited words in 2020".
